GUN

Devon Global LLC was established in 2014 as a manufacturer of modern combat and sniper rifles. Our unremitting pursuit of high-quality firearms delivers precise design, absolute reliability, consistent accuracy, and extreme durability to warfighters and law enforcement officers. Designed, machined, and assembled entirely in the USA, our firearms do not just meet the requirements and expectations of our customers, they will feel the difference form, fit and function, built just right.

Devon Global is proud to have two brands, Devon Defense and Dragonov. Through the application of modern materials science, creative engineering, and advanced manufacturing processes, Devon Defense was designed with revolutionary new features while maintaining the basic M4/M16 architecture that has served U.S. armed forces well for the past 40 years. Devon Defense delivers best-in-class design, outstanding ergonomics, and flawless functionality. Dragonov stands for the best modern sniper and hunting rifles that are consistency, reliability and high performance. Each Dragonov rifle is carefully assembled by a single engineer, and each individual barrel is visually inspected. Each Dragonov rifle then goes through manual accuracy testing to confirm that the rifle can perform under 1MOA accuracy. If you want something done right, you have to do it yourself. Our gas piston system and barrel are the core that we build our rifles around. Devon Global designs and engineers its own short-stroke gas piston system and also manufactures its own cold hammer-forged barrels out of 41V45 alloy. The piston system and barrel stand up better than competitors to precision and extreme use, which means that our customers see a lower loss in accuracy and velocity as the round count increases.

At Devon Global, we are constantly combining the newest technologies with the customers' expectations to bring military, law enforcement, and hunters the most durable and reliable rifles possible. From design and machining to assembly and shipping, we are skilled and our methods are meticulous and efficient. All of our rifles are made in the U.S.A., and we are all proud to offer our customers the finest rifles in the world.

Devon Global Individual Machine Gun is designed to interchange with standard AR/M4 type uppers and readily fits any MIL-Spec lower receiver without permanent modification to the host lower, and is rearward compatible to AR15/M16 models produced as early as 1963.

IMG Individual Machine Gun

SPECIFICATIONS

CALIBER	5.56 X 45mm NATO
ACTION	Full Auto Gas Piston
BARREL	16" Quick-Change Heavy Barrel
RIFLING	1:7 RHT, 1/2x28 TPI Chrome Lined
WEIGHT	10.65 lbs./4.83 kg (Lightest Configuration)
FEED SYSTEM	Dual Feed – Accepts All M16/M4 Magazines & M27 Linked Ammunition
FINISH	Manganese Phosphate & Type III, Class 2 Hard Coat Anodize, Anti-Rust Marine Coating is Optional
UPPER/LOWER RECEIVER	Precision Machined Billet 7075 T6 Aluminum, Feed Cover and Charging Handle
HANDGUARD	MIL-STD 1913 Picatinny Rail
MUZZLE DEVICE	Black Steel Muzzle Brake
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style, Fully Automatic
STOCK	6 Position Black, Synthetic Telescoping Stock with Mil-Spec Receiver Extension Tube
MOUNT	Bipod Adjustable Heavy Duty

SAW Squad Automatic Weapon

Devon Global Squad Automatic Weapon is designed to be used on the front lines where it really matters, providing crucial support at the infantry squad/fire team level by providing highly accurate fire plus the maneuverability to take the objective. The ergonomically shaped polymer buttstock contains a hydraulic buffer that allows shooters to maintain a high rate of fire with accuracy and effect.

SPECIFICATIONS

CALIBER	5.56 X 45mm NATO
ACTION	Open Bolt
BARREL	16" Quick-Change CHF Heavy Barrel
RIFLING	1:7 RHT, 1/2x28 TPI Chrome Lined
WEIGHT	17 lbs./7.7 kg
FEED SYSTEM	Standard Disintegrating Link Belt-fed
FINISH	Matte Black Non-reflective Finish, Anti-Rust Marine Coating is Optional
UPPER/LOWER RECEIVER	Formed Steel Frame With Claw Extractor Design Top Cover Integrated MIL-STD-1913 Mounting Rail for Sighting Systems
HANDGUARD	MIL-STD 1913 Picatinny Rail
MUZZLE DEVICE	Black Steel Muzzle Brake
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style, Fully Automatic
STOCK	Highly Ergonomic Polymer Buttstock Assembly With Hydraulic Recoil Buffer System and Non-slip Butt- plate
MOUNT	Bipod Adjustable Heavy Duty

Devon Global M2HB is an air-cooled, belt-fed, machine gun with heavy barrel which is capable of both sustained automatic and accurate single-shot fire. It is used extensively as a vehicle, boat, helicopter or other aircraft mounted weapon. Since ammunition may be fed from either the left or the right side of the gun, it is suitable for use by both infantry and in armored vehicles. The M2HB is the world standard in heavy machine guns.

M2HB Heavy Machine Gun

SPECIFICATIONS

CALIBER	12.7×99mm NATO
ACTION	Open Bolt
BARREL	45" Quick-Change CHF Heavy Barrel
RIFLING	1:15 RHT, Chrome Lined
