Devon Global LLC was established in 2014 as a manufacturer of modern combat and sniper rifles. Our unremitting pursuit of high-quality firearms delivers precise design, absolute reliability, consistent accuracy, and extreme durability to warfighters and law enforcement officers. Designed, machined, and assembled entirely in the USA, our firearms do not just meet the requirements and expectations of our customers, they will feel the difference form, fit and function, built just right.

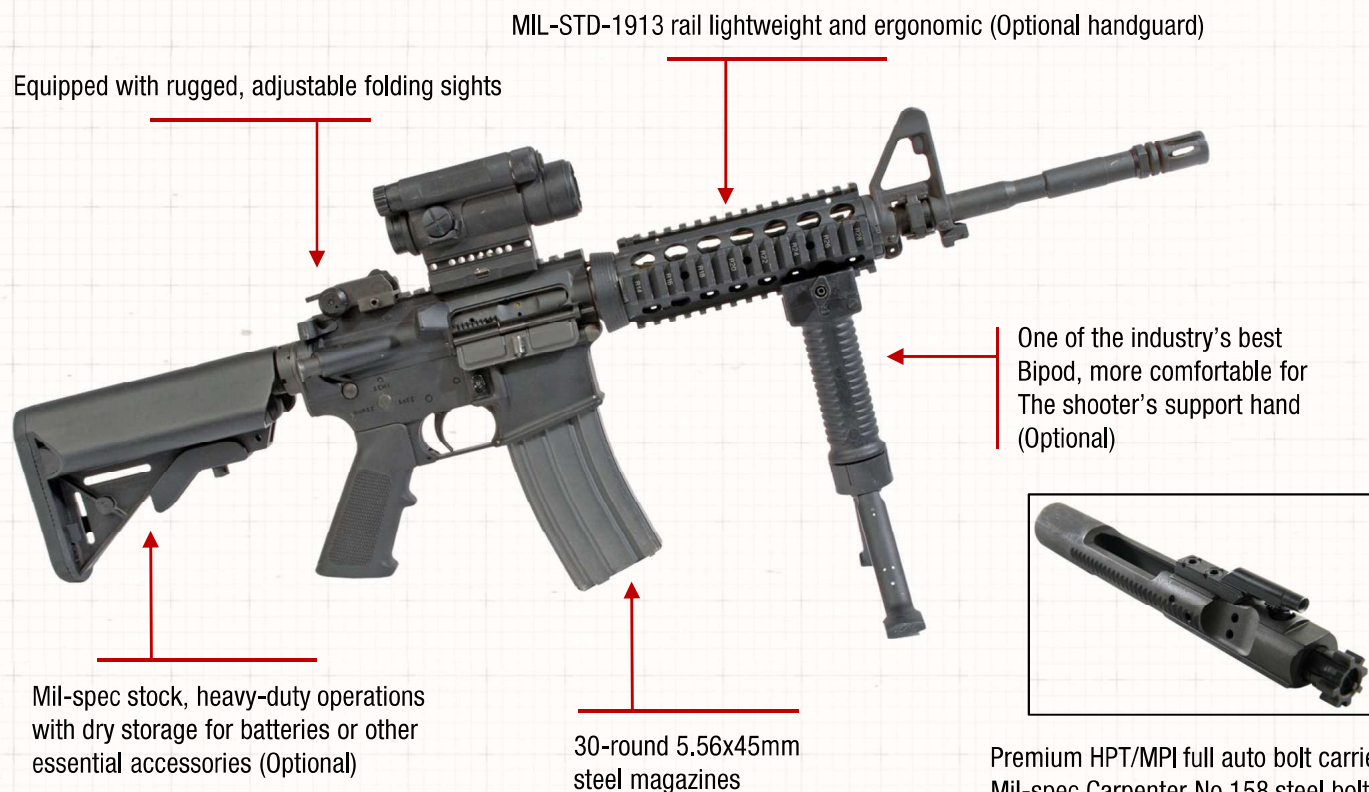

Devon Global is proud to have two brands, Devon Defense and Dragonov. Through the application of modern materials science, creative engineering, and advanced manufacturing processes, Devon Defense was designed with revolutionary new features while maintaining the basic M4/M16 architecture that has served U.S. armed forces well for the past 40 years. Devon Defense delivers best-in-class design, outstanding ergonomics, and flawless functionality. Dragonov stands for the best modern sniper and hunting rifles that are consistency, reliability and high performance. Each Dragonov rifle is carefully assembled by a single engineer, and each individual barrel is visually inspected. Each Dragonov rifle then goes through manual accuracy testing to confirm that the rifle can perform under 1MOA accuracy. If you want something done right, you have to do it yourself. Our gas piston system and barrel are the core that we build our rifles around. Devon Global designs and engineers its own short-stroke gas piston system and also manufactures its own cold hammer-forged barrels out of 41V45 alloy. The piston system and barrel stand up better than competitors to precision and extreme use, which means that our customers see a lower loss in accuracy and velocity as the round count increases.

At Devon Global, we are constantly combining the newest technologies with the customers' expectations to bring military, law enforcement, and hunters the most durable and reliable rifles possible. From design and machining to assembly and shipping, we are skilled and our methods are meticulous and efficient. All of our rifles are made in the U.S.A., and we are all proud to offer our customers the finest rifles in the world.

DEVON DEFENSE D1

Devon Defense D1 was the first line of modern combat direct impingement (DI) rifles from Devon Global released in 2014. The goal was to supply our customers with the best DI AR-15 rifle available on the market. Since then Devon Defense DI has been known for reliable and accurate DI AR-15 rifles to warfighters and law enforcement officers. Enhanced Bolt Carriers are precision machined that increase the reliability of the DI AR15 platform. Barrels are hammer forged chrome moly vanadium made by FN that is referred to as "Machine Gun Steel" by virtue of its required use in FN's M249 and M240 weapons. Chambered in 5.56 NATO, with a 1/7 twist, M4 barrel extension. The chrome process for the bore allows for a lining almost twice as thick as a standard M16 for enhanced durability.

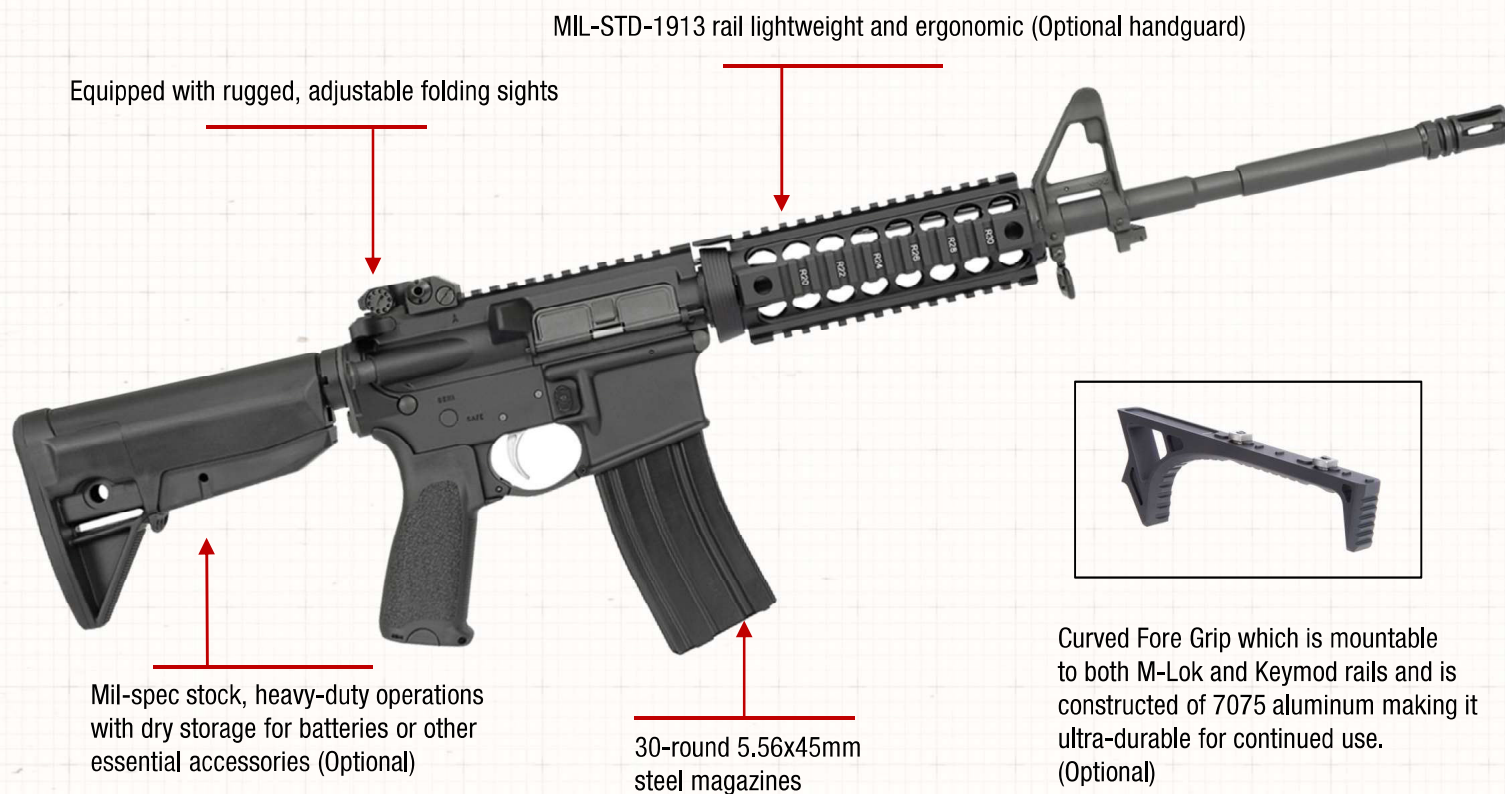

Premium HPT/MPI full auto bolt carrier group
 Mil-spec Carpenter No.158 steel bolt
 High pressure tested (HPT)
 Mag particle inspected (MPI)
 Chrome Lined Carrier (AUTO)

**MADE IN
THE USA**

CALIBER	5.56 X 45mm NATO
ACTION	Full Auto Direct Impingement
BARREL	14.7"/16" Cold Hammer Forged
RIFLING	1:7, 1/2x28 Barrel Threads
WEIGHT	7.0 lbs./3.18kg (empty)
LENGTH	33"/838.2mm
FINISH	Hard Coat Anodized
UPPER/LOWER RECEIVER	Forged 7075 T6 Aluminum
HANDGUARD	7"/9" Classic Tapered Polymer
MUZZLE DEVICE	A2-Style Flash Hider
BOLT CARRIER GROUP	Carpenter 158, Mag Phosphate Coated Bolt; 8620, Chrome Lined Bolt Carrier
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style
STOCK	M4-Style, Mil-spec Stock

DEVON DEFENSE D2

Devon Defense D2 was originally developed by U.S. SEAL Team Armorers to provide SEALs with a lightweight modular carbine that had enhanced ballistic performance and utility over an issue M4. The D2 runs smoother and allows more agile weapons control, thanks to its DI gas system and extended handguard. D2 DI systems deliver the same compact size of a carbine, with less overpressure and recoil for a smoother running platform with more agile weapon control. The D2 DI system also allows for a longer hand guard and by extension, a longer iron sight radius for improved accuracy when engaging with iron sights.

**MADE IN
THE USA**

CALIBER	5.56 X 45mm NATO
ACTION	Full Auto Direct Impingement
BARREL	16" Cold Hammer Forged
RIFLING	1:7, 1/2x28 Barrel Threads
WEIGHT	6.5 lbs./2.9kg (empty)
LENGTH	35"/889mm(Stock Extended)
FINISH	Hard Coat Anodized
UPPER/LOWER RECEIVER	Forged 7075 T6 Aluminum T-Marked Upper Receivers
HANDGUARD	7" Quad Rail Tactical Handguard
MUZZLE DEVICE	A2-Style Flash Hider
BOLT CARRIER GROUP	Carpenter 158, Mag Phosphate Coated Bolt; 8620, Chrome Lined Bolt Carrier
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style
STOCK	Mil-spec Lightweight Heavy-duty Buttstock

DEVON DEFENSE M4A1

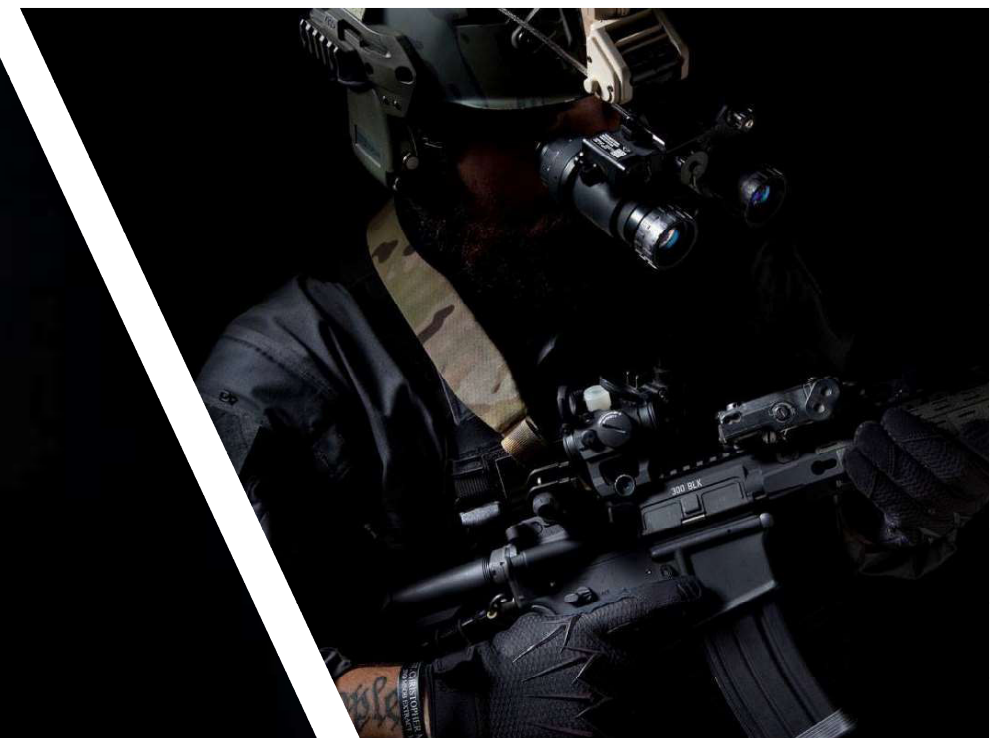

The M4A1 is a fully automatic variant of the M4 carbine – a shorter and lighter variant of the M16. It went into service in 1994 to replace the M16 in certain roles. The M4A1 trigger group operates on either Safe, Semi-Automatic, or Fully Automatic settings. Cartridges are the 5.56x45mm (.223) NATO cartridge that is magazine fed. Firing is achieved via a direct impingement gas operating system. It is primarily used by special operations.

	M4A1
Caliber	5.56x45mm NATO
Action	safe-semi-auto Direct impingement
Barrel	14.5"
Rifling	1/7" RH
Weight	6.36lb
Length	33"
Upper/lower receiver	7075-T6 Aluminum
Handguard	7" Classic Tapered Polymer
Muzzle device	A2-Style Flash Hider
Bolt carrier group	Carpenter 158, Mag Phosphate Coated Bolt; 8620, Chrome lined bolt carrier
Fire control group	single-stage, mil-spec style
Stock	M4-Style, Mil-spec stock
Rate of Fire	700-950 RPM
Trigger Pull	5.5-9.5 lb.
Effective Range	500-600 m

300 BLACKOUT

An extension of our MIL-SPEC quality 5.56 rifles, the DA3 line was developed to provide an extremely effective CQB platform in a compact package.

DEVON DEFENSE DA3

Devon Global is proud to announce Devon Defense DA3, a line of 300 Blackout carbines in CQB and pistol configurations. Approved by SAAMI on 17 January, 2011, Supersonic 300 AAC Blackout 110-125 grain 300 Blackout ammunition was designed to produce a similar ballistic effect on target of a 7.62 x 39 mm round but out of a 9" barreled AR platform carbine. At 300 meters, 300 Blackout has 16.7% more energy than a 7.62 x 39mm round. A supersonic round fired from a 9" barreled AR pattern 300 Blackout carbine will match or exceed the energy at the muzzle of a 14.5" 5.56 M4 carbine.

The best muzzle brake for compensating muzzle rise and recoil on Short Barrel Rifles (SBR's) and AR-Pistols. (Optional)

The best of all worlds: the lightest, shortest, quietest, full auto rated, 7.62mm rifle silencer on the market. (Optional)

The CNC machine can cut precise, one-piece trigger guard, specific and unique shapes. (Optional)

**MADE IN
THE USA**

CALIBER	300 AAC Blackout (7.62 X 35mm)
ACTION	Full Auto Direct Impingement
BARREL	8.1" Cold Hammer Forged
RIFLING	1:7, 5/8x24 Barrel Threads
WEIGHT	5.0 lbs./2.27kg (empty)
LENGTH	25"/635mm
FINISH	Cerakote Coated
UPPER/LOWER RECEIVER	Billet 7075 T6 Aluminum T-Marked Upper Receivers
HANDGUARD	9" Free Floating One Piece
MUZZLE DEVICE	27-31 dB Suppressor
BOLT CARRIER GROUP	Nickel-Boron Coated, Heat-Treated, Carpenter 158 Bolt and 8620 Bolt Carrier
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style
STOCK	Lightweight Heavy-duty Buttstock

DEVON DEFENSE DA9

Devon Defense DA9 is a passion project from Devon Global. The ambitious goal was to bring a 9mm AR to the market. The DA9 dedicated to accept standard Glock magazines, allowing to easily transition between handgun to the DA9. The DA9 does not require sub-sonic ammunition as the careful porting reduces velocity below the speed of sound. No more specialty 9mm ammo required. The DA9 is specifically designed for Military and Law Enforcement Agencies who require more from their rifle than standard mil-spec parts provides. We have extensively tested the DA9 and it has exceeded expectations for reliability and accuracy. When the DA9 is mated with a quality red dot sight and weapon light, it is an exceptional combat firearm for shooters of all skill levels.

Accepting Glock Standard 17rds, 31rds, and 33rds 9mm Luger magazines.

The CNC machine can cut precise, one-piece trigger guard, specific and unique shapes. (Optional)

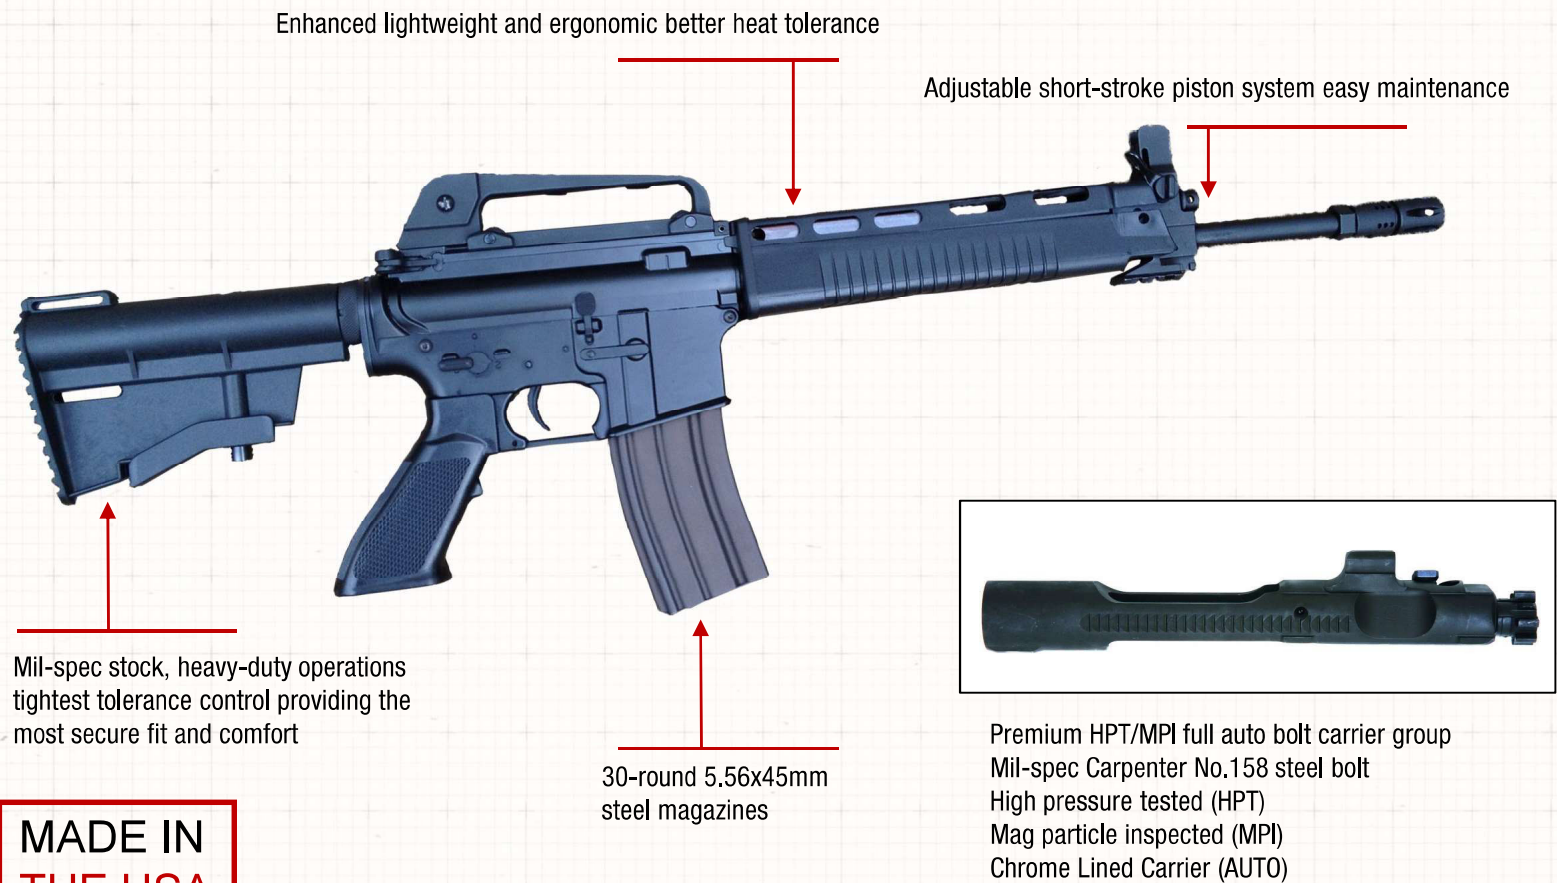

**MADE IN
THE USA**

CALIBER	9mm Luger
ACTION	Full Auto Blowback Operated
BARREL	8.3"/16" Cold Hammer Forged
RIFLING	1:10/1:16, 5/8x24 Barrel Threads
WEIGHT	5.0 lbs./2.27kg (empty)
LENGTH	25"/635mm
FINISH	Cerakote Coated
UPPER/LOWER RECEIVER	Billet 7075 T6 Aluminum T-Marked Upper Receivers
HANDGUARD	9" Free Floating One Piece
MUZZLE DEVICE	A2 Flash Hider
BOLT CARRIER GROUP	Black Nickel-Boron Coated, Heat-Treated, Carpenter 158 Bolt and 8620 Bolt Carrier
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style
STOCK	Lightweight Tactical Buttstock

DEVON DEFENSE A1

Devon Defense A1 was our first line of gas piston-driven rifles released in 2014. The foundation for Devon Defense A series rifle is a self-regulating, short-stroke gas piston system. As with all piston rifles the venting of hot gases into the receiver and bolt carrier group are eliminated, improving performance and eliminating the cleaning regime associated with direct impingement rifles. Devon Defense piston-driven Military Standard AR style rifles can handle extreme environments. The components used in our piston system are machined from the super-alloy family of steel alloys - used exclusively in aerospace manufacturing where components are subjected to extreme conditions. Devon Defense A1 rifles have been used by several police departments in the U.S.A.

MADE IN THE USA

CALIBER	5.56 X 45mm NATO
ACTION	Full Auto Gas Piston
BARREL	16" Cold Hammer Forged
RIFLING	1:7, 1/2x28 Barrel Threads
WEIGHT	7.2 lbs./3.27kg (empty)
LENGTH	34"/863.6mm
FINISH	Hard Coat Anodized
UPPER/LOWER RECEIVER	Forged 7075 T6 Aluminum
HANDGUARD	7"/9" Heat Resistance Polymer
MUZZLE DEVICE	Black Steel Muzzle Brake
BOLT CARRIER GROUP	Carpenter 158, Mag Phosphate Coated Bolt; 8620, Chrome Lined Bolt Carrier
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style
STOCK	M4-Style, Mil-spec Stock

Using a short-stroke gas piston operating system, the Devon Defense A1 is gas operated and uses a piston and a solid operating “pusher” rod in place of the common gas tube normally employed in AR-style rifles. This method virtually eliminates malfunctions common to direct impingement gas systems since hot carbon fouling and waste gases do not enter the receiver area. The rifle stays cleaner, reducing heat transfer to the bolt and bolt carrier, and drastically reducing wear and tear on other critical components. The service life of all parts is increased substantially.

DEVON DEFENSE A2

Devon Defense A2 is the most advantaged modern combat rifle in our Devon Defense A series of gas piston-driven rifles released in 2015. We had cut the bulk from A1. To minimize weight and maximize shooter comfort, the new features a redesigned handguard, reducing the size from the A1 by nearly 20%, making the width a mere 1.75 inches. Not only does this drop the weight down to 7 lbs., it provides even better ergonomics to the shooter. The Devon Defense A2 simply will not fail when you need it most. Quality is not just a concept, it's our commitment. You'll feel it the first time you pick up and shoulder a Devon Defense A2 rifle. Form, fit and function built for you. High performance – fully customized. Engineered to exceed.

Nickel-Boron coated full auto bolt carrier group
Mil-spec Carpenter No.158 steel bolt
permanent dry lubricity, extreme durability
and increases both wear and corrosion resistance

**MADE IN
THE USA**

CALIBER	5.56 X 45mm NATO
ACTION	Full Auto Adjustable Gas Piston
BARREL	16" Cold Hammer Forged
RIFLING	1:7, 1/2x28 Barrel Threads
WEIGHT	7.0 lbs./3.17kg (empty)
LENGTH	32"/813mm
FINISH	Cerakote Coated
UPPER/LOWER RECEIVER	Forged 7075 T6 Aluminum
HANDGUARD	15" M-LOK Free Floating Hybrid
MUZZLE DEVICE	Triple Port Muzzle Brake
BOLT CARRIER GROUP	Nickel-Boron Coated, Heat-Treated, Carpenter 158 Bolt and 8620 Bolt Carrier
FIRE CONTROL GROUP	2-Stage (Single Stage in Full Auto)
STOCK	Mil-spec Lightweight Compact Buttstock

SUPPORT AND SERVE

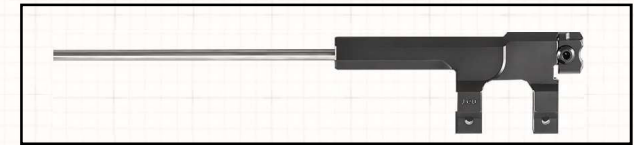

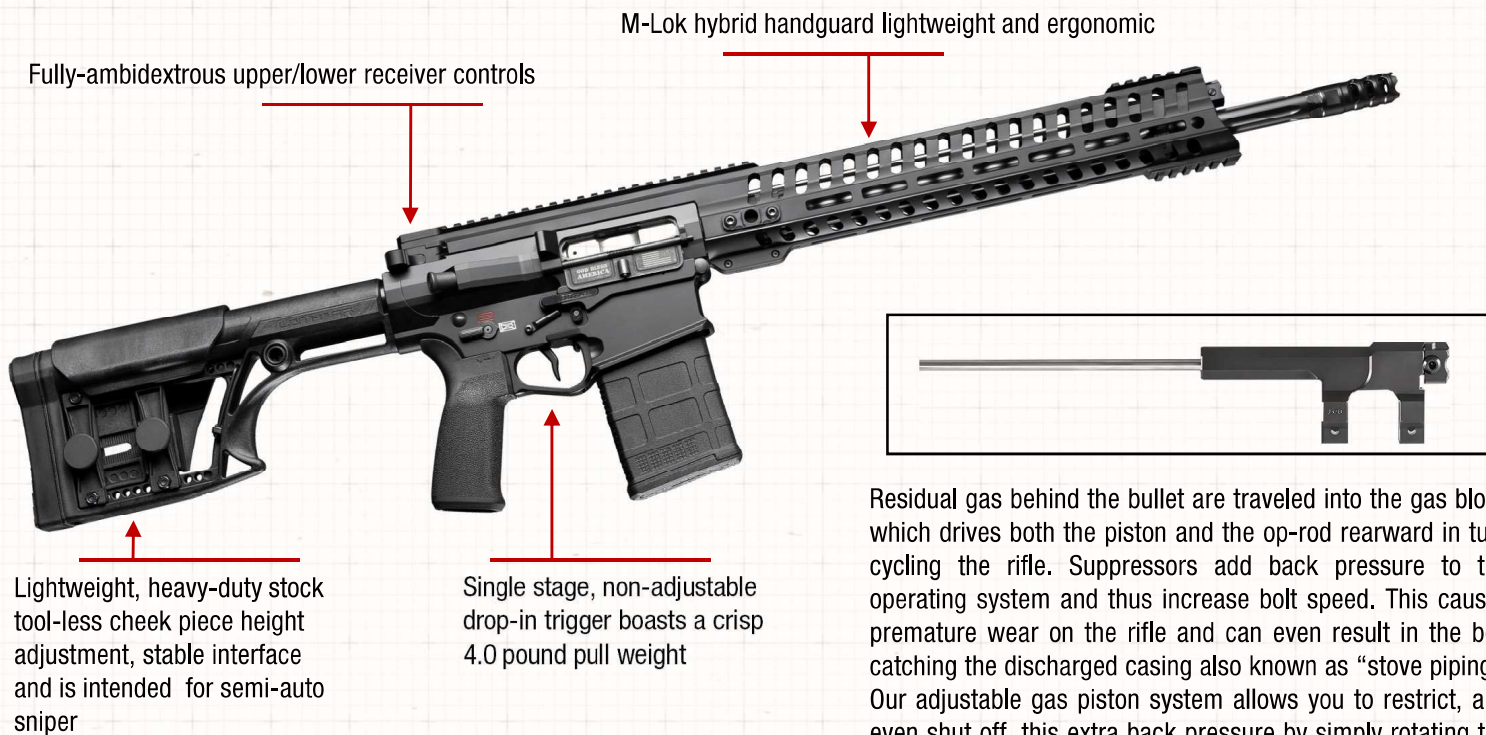

Devon Global is proud to support and equip police departments, federal and state agencies, military units, and our international allies. Our rifles are designed and built to withstand the most extreme conditions for the operators who depend on their rifles.

DRAGONOV 308

Dragonov 308 is engineered and redesigned with the same innovation and durability based on the U.S. Military SR-25 sniper rifle, truly the ultimate fighting machine. Dragonov 308 equips our new M-LOK series handguards, reducing the width by nearly 20%, giving you the most comfortable semi-auto sniper rifle yet. It also features all of our newest upgrades such as adjustable gas piston system, ambidextrous fire controls, modular free floating rail platform, anti-tilt buffer tube, field precision stock, and more. Dragonov 308 retains lethal capability out to 800 meters with varying types of ammunition. It is your best option for certainty in an uncertain world.

Residual gas behind the bullet are traveled into the gas block which drives both the piston and the op-rod rearward in turn cycling the rifle. Suppressors add back pressure to the operating system and thus increase bolt speed. This causes premature wear on the rifle and can even result in the bolt catching the discharged casing also known as “stove piping”. Our adjustable gas piston system allows you to restrict, and even shut off, this extra back pressure by simply rotating the gas plug.

**MADE IN
THE USA**

CALIBER	7.62 X 51mm NATO (.308 WIN)
ACTION	Full Auto Adjustable Gas Piston
BARREL	18.5" Cold Hammer Forged
RIFLING	1:10, 5/8x24 Barrel Threads
WEIGHT	8.4 lbs./3.81kg (empty)
LENGTH	39"/990.6mm
FINISH	Hard Coat Anodized
UPPER/LOWER RECEIVER	Forged 7075 T6 Aluminum
HANDGUARD	15" M-LOK Free Floating Hybrid
MUZZLE DEVICE	Triple Port Muzzle Brake
BOLT CARRIER GROUP	Nickel-Boron Coated, Heat-Treated, Carpenter 158 Bolt and 8620 Bolt Carrier
FIRE CONTROL GROUP	Single Stage, 4.0 lbs. Drop-in with Anti-walk Pins
STOCK	Field Precision Stock

DRAGONOV 300

Dragonov 300 was the first bolt action sniper rifle redesigned by our founder, Mr. Ran Li. It is the finest precision bolt action rifle on the market for competition shooters, snipers and experienced hunters. Dragonov 300 is not only extremely accurate but also durable and reliable with attention to detail in fit and finish. Action frame is cold hammer-forged from special alloyed steel, stiff and sturdy for extra rigidity. The receiver is stabilized with three fastening screws. All Dragonov 300 receivers are drilled and tapped for a MIL-STD-1913 rail. Integral 17mm axial scope mounting rails with recoil stop-slots. Fully adjustable sniper rifle stock is designed to meet individual demands, and adjusts to each shooter's personal style, build and posture. Dragonov 300 rifles have been used in several U.S. police departments' Special Operations Teams as their primary sniper rifle.

MIL-STD-1913 rail lightweight and ergonomic (Optional)

Sniper rifle stock is designed for both right and left handed shooters. Cheek piece can be adjusted laterally and vertically. Butt-plate is adjustable for distance and angle

**MADE IN
THE USA**

Dragonov 300 is designed as the most interchangeable bolt action rifle ever built. The action has the unique capability of hosting a bolt with interchangeable bolt heads. A .338 Lap Mag can be reconfigured to .300 Win Mag in minutes simply by changing the barrel, bolt and magazine.

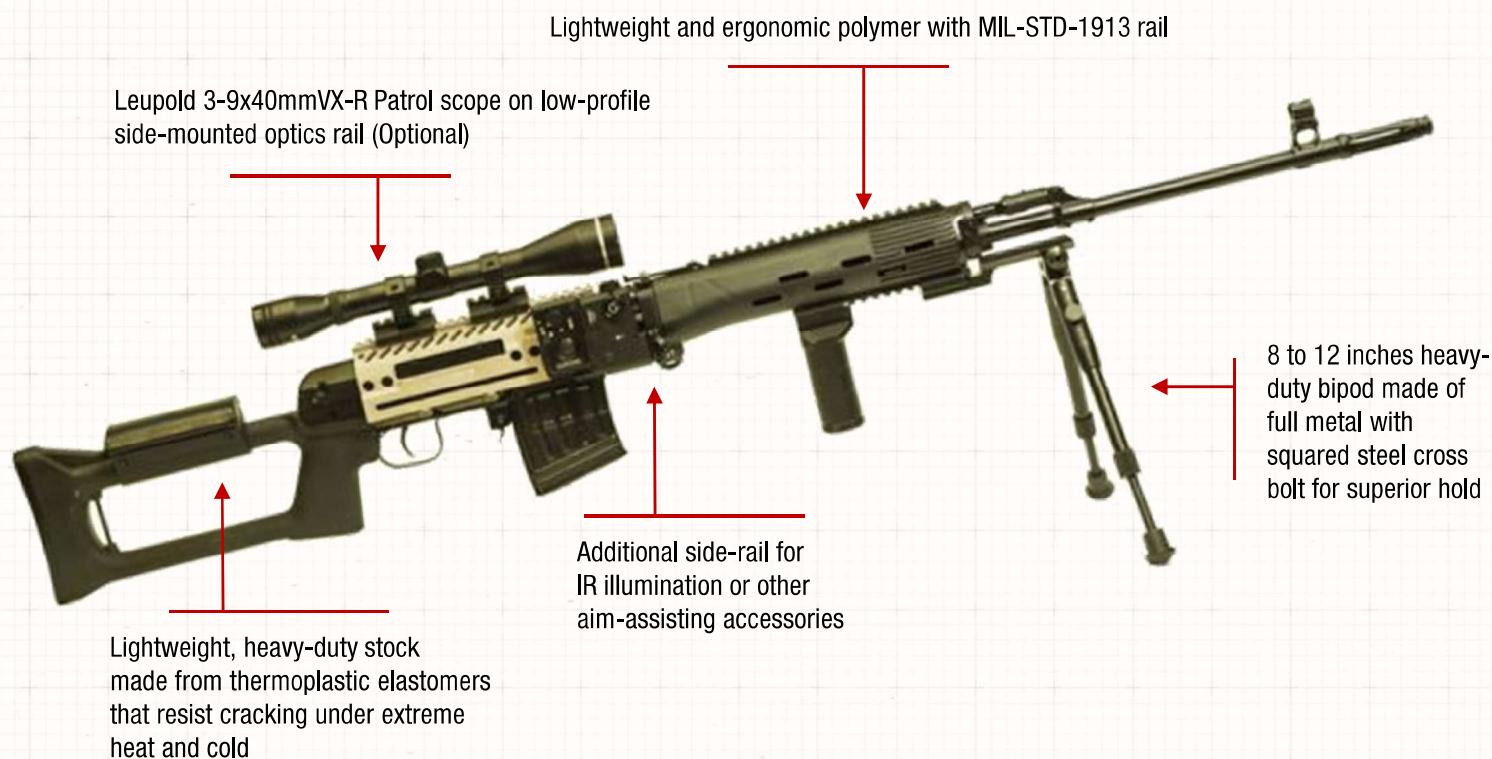

CALIBER	.300 Win Mag/.338 Lap Mag
ACTION	Bolt Action
BARREL	24"/26" Stainless Steel
RIFLING	1:12 Plain Threaded
WEIGHT	13.6 lbs./6.17kg (empty)
LENGTH	45.5"/1155.7mm
FINISH	Cerakote Coated
BOLT	3 Locking Lugs, Plunger Ejection, 60° Bolt Lift Angle
MAGAZINE	10 Rounds Detachable Staggered Row Magazine
MUZZLE DEVICE	Double Port Muzzle Brake
FIRE CONTROL GROUP	Double Stage, Pull Adjustable 2 to 5 lbs.
STOCK	Sniper Rifle Stock, Adjustable in Height and Cast Off/On

DRAGONOV 762

Dragonov 762 is the most advantaged modern sniper rifle that is built around a battle-proven core: a gas-operated, short-stroke piston system. Dragonov 762 is redesigned and improved from the famous Russian SVD. Dragonov 762 is semi-auto sniper rifle engineered for reliable operation in extreme environments. Its main purpose is to extend the reach of an infantryman beyond the limitations of their standard rifle's caliber and sighting system.

**MADE IN
THE USA**

CALIBER	7.62x54mmR
ACTION	Semi Auto Adjustable Gas Piston
BARREL	24" Stainless Steel
RIFLING	1:12, 5/8x24 Barrel Threads
WEIGHT	9.0 lbs./4.08kg (empty)
LENGTH	48"/1219.2mm
FINISH	Hard Coat Anodized
MAGAZINE	10 Rounds Steel Magazines
HANDGUARD	9" Heat Resistance Polymer
MUZZLE DEVICE	Triple Port Muzzle Brake
BOLT CARRIER GROUP	Carpenter 158, Mag Phosphate Coated Bolt; 8620, Chrome Lined Bolt Carrier
FIRE CONTROL GROUP	Double Stage, 5.0 lbs. Drop-in
STOCK	Lightweight Heavy-duty Buttstock

DESIRABILITY

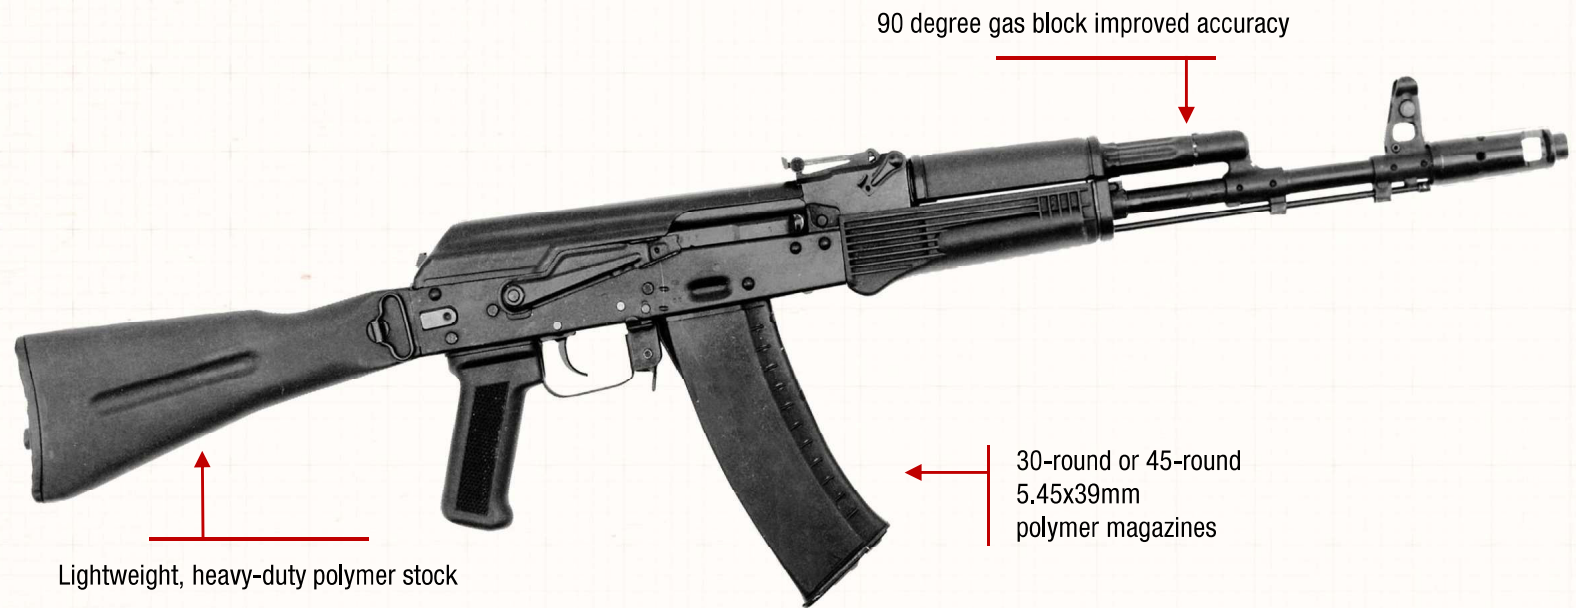

Visible/IR laser and IR illumination module, on the left side of the rail.

DRAGONOV DA74

Dragonov DA74 is 5.45x39mm caliber, US manufactured, AKs based on the Russian AK platform. The DA74 rifle is compatible with all standard AK magazines and have threaded barrels in order to accept various muzzle devices including flash suppressors, muzzle brakes and sound suppressors. The DA74 rifle is also equipped with bayonet lugs. The barrel length is 16.3" and includes a modern muzzle brake to reduce recoil and improve accuracy. The overall length is 36.5" with the Warsaw Pact length stocks. All DA74 rifles come standard with the classic side mounted optics rail. The absolute reliability, made according to the original technology, and detailed attention, which makes the DA74 rifle the highest quality AK-74 available on the market.

CALIBER	5.45x39mm
ACTION	Full Auto Gas Piston
BARREL	16.3" Chrome Lined Hammer Forged
RIFLING	1:7.87, 14 x 1 LH Threads
WEIGHT	7.3 lbs./3.31kg (empty)
LENGTH	36.5"/927mm
FINISH	Hard Coat Anodized
MAGAZINE	30/45 Rounds Polymer Magazines
HANDGUARD	Heat Resistance Polymer
MUZZLE DEVICE	Recoil Reduced Muzzle Brake
Effective Firing Range	500 m (550 yd) (point target) 800 m (870 yd) (area target)
FIRE CONTROL GROUP	Single-Stage, Mil-Spec style
STOCK	Lightweight Mil-spec Stock

**MADE IN
THE USA**

DRAGONOV DA104

Dragonov DA104 is the perfect AK variant, long enough for mid range engagements, short enough for close quarter engagements and featuring the ability to fold down for increased mobility for use inside vehicles and concealment. Knowing this, Devon Global took this highly capable platform and brought it to the next level with modern enhancements providing not only improved ergonomics, but improved usability and options as well. One weakness of the AK platform is its complete absence of any form of rail interface. However, we have removed this weakness and taken the front end into modern times with a upper and lower rail system. The lower handguard is made of aluminum and has a singular lower rail for tactical lights, optics, foregrips, bipods, grenade launcher or any other Picatinny compatible attachments.

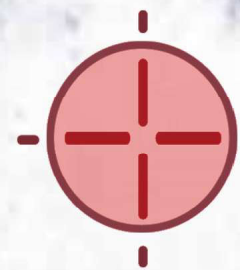

**MADE IN
THE USA**

CALIBER	7.62x39mm
ACTION	Full Auto Gas Piston
BARREL	11"/12" Chrome Lined Hammer Forged
RIFLING	1:9.44, 14 x 1 LH Threads
WEIGHT	6.3 lbs./2.85kg (empty)
LENGTH	30"/764mm (23"/584mm Folded)
FINISH	Hard Coat Anodized
MAGAZINE	30/45 Rounds AK Magazines
HANDGUARD	Rigid Ultra-Light Tactical Rails
MUZZLE DEVICE	Recoil Reduced Muzzle Brake
Effective Firing Range	300 m (330 yd) (point target) 500 m (550 yd) (area target)
FIRE CONTROL GROUP	Single-Stage, Mil-Spec Style

**DEVON
OPTICS**

DR-20 1x25mm Red Dot Sight

Devon Optics provides you with high quality, battle-proven design optics and red dot sights that will get the job done when you need them most. There's nothing like a red dot for fast target acquisition and accuracy in dim conditions. The DR-20 1x25 red dot is engineered with Amber-Bright optics to help you quickly distinguish between a brown tree and a brown critter. And thanks to the scope's multicoated optics, shooters will have no problem seeing their targets in low-light conditions. The first three brightness settings are night vision compatible and can only be seen when the red dot is used together with a separate night vision device. Turning the rotary switch until it stops in either direction will turn the red dot completely off. At the highest settings the 3 MOA dot is instantly acquired by the eye even in bright daylight. Other features include a 100-percent waterproof/fog-proof/shockproof construction, a dry-nitrogen-filled housing, and a CR2032 battery.

BATTERY LIFE	30000 Hours
BATTERY TYPE	CR2032 3V Lithium Coin
BRIGHTNESS	12 Settings
CLICK VALUE	1/2 MOA
FINISH	Hardcoat Anodized
MATERIAL	6061 Aluminum
MODE	Night Vision Compatible
RETICLE	3 MOA Dot
RETICLE COLOR	Red
MOUNT HEIGHT	Lower 1/3 Cowitness with Iron Sights
MOUNTING LENGTH	1.1 in / 28 mm
WEIGHT	3.7 oz
PARALLAX FREE	25 yds

**MADE IN
THE USA**

DR-40 Red Dot Sight Integrated Laser & Riser

Devon Optics provides you with high quality, battle-proven design optics and red dot sights that will get the job done when you need them most. The DR-40 has been our bestselling red dot for the past two years and it features an estimated 50,000 hours of battery life from a single CR123A battery at medium illumination setting. With 6 total illumination settings, you can quickly adjust the red dot with push-buttons to the appropriate brightness depending on the time of day. The 2 MOA red dot is extremely crisp and allows you to take quickly aimed shots at short range while still giving you the ability to make effective shots at medium ranges. The glass that the red dot is projected on is fully multi-coated to reduce reflection and provide a clear sight picture. The glass and electronic internals are covered by a durable 6061 aluminum housing with O-rings providing protection from water and fog. It is ideal for tactical & law enforcement or any shooting scenario where magnification is not required.

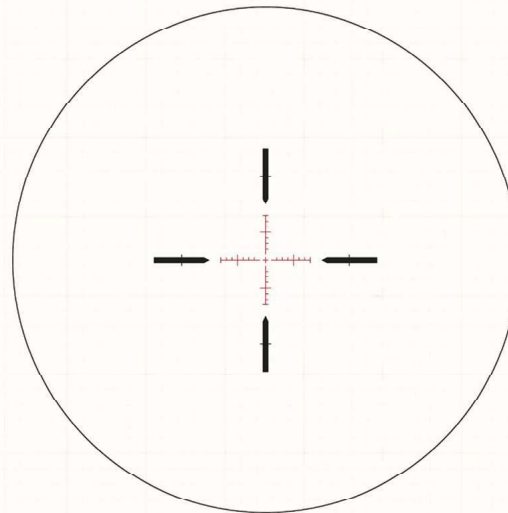

**MADE IN
THE USA**

BATTERY LIFE	50000 Hours
BATTERY TYPE	Surefire CR123A
BRIGHTNESS	6 Settings
CLICK VALUE	1/2 MOA
FINISH	Hardcoat Anodized
MATERIAL	6061 Aluminum
MODE	Laser/Red, Dot/Red, Dot+Laser
RETICLE	2 MOA Dot
RETICLE COLOR	Red
MOUNT HEIGHT	1.58" from Rail to Center of Sight (Lower 1/3 Cowitness with Iron Sights)
MOUNTING LENGTH	1.1 in / 28 mm
WEIGHT	8.3 oz
PARALLAX FREE	25 yds

DS-04 1-4x24 SFP Riflescope

Devon Optics provides you with high quality, battle-proven design optics and riflescope that will get the job done when you need them most. Speed and versatility, that's what 1x variable optics offer AR shooters who need to engage targets from point-blank out to extended ranges. High-quality, fully multi-coated lenses deliver a clear, crisp sight picture and optimal low-light performance. A true one-power on the low end of its 4x zoom range provides quick target acquisition in close quarters scenarios. The reticle is etched on the glass to provide excellent backing support for complex reticle design and offers great durability and much higher shock resistance to recoil. Illuminated reticle provides greater visibility at dusk and dawn. Aircraft grade aluminum construction provides extra strength and durability to handle the toughest terrain over a lifetime of use. Heat treated one piece tube gives the scope extra strength over multi-piece tubes and keeps moisture out to prevent fogging up. The one-piece 30mm tube, precision-machined from a single solid block of aircraft-grade 6061-T6 aluminum, offers ample windage and elevation adjustment.

**MADE IN
THE USA**

MAGNIFICATION	1-4x
OBJECTIVE LENS DIAMETER	24mm
EYE RELIEF	4.5-3.5 Inches
FIELD OF VIEW	110-26 feet@100 yards
RETICLE	AHSR 14 SFP IR MIL
MATERIAL	6061-T6 Aluminum
ADJUSTMENT RANGE PER ROTATION	12 MIL
MAX ELEVATION ADJUSTMENT	40 MIL
MAX WINDAGE ADJUSTMENT	40 MIL
PARALLAX SETTING	Fixed 100 Yards
LENGTH	9.2 in / 233.68 mm
WEIGHT	18 oz

DS-06 1-6x24 SFP Rifle Scope

Devon Optics provides you with high quality, battle-proven design optics and riflescope that will get the job done when you need them most. Perfect for any combat rifle, the DS-06 is a top-tier optical solution for short to medium-range tactical applications. Optically, it delivers the highest level of clarity, resolution, color accuracy, light transmission and edge-to-edge sharpness. A true one-power on the low end of its 6x zoom range provides quick target acquisition in close quarters scenarios. Need to engage targets at distance? Crank it up to 6x and let it rip. The ultra-forgiving eye-box with generous eye relief generates a heads-up-display-like sight picture for fast target acquisition and optimal monitoring of the surrounding environment. The unique design of open centers does not block any 12~18 inch targets beyond 200 yards and allows a shooter to take a quick shot once a target fills up the gap in the middle. A true, daylight-bright illuminated center dot gives shooters ultimate close-quarters versatility.

**MADE IN
THE USA**

MAGNIFICATION	1-6x
OBJECTIVE LENS DIAMETER	24mm
EYE RELIEF	3.8 Inches
FIELD OF VIEW	108-17.6 feet@100 yards
RETICLE	ATSR1 SFP IR MOA, Glass Etched illuminated
MATERIAL	6061-T6 Aluminum
ADJUSTMENT RANGE PER ROTATION	30 MOA
MAX ELEVATION ADJUSTMENT	150 MOA
MAX WINDAGE ADJUSTMENT	150 MOA
LENGTH	10.6 in / 269.24 mm
WEIGHT	18.1 oz
